Hey everyone! We're excited to kick off our monthly newsletter for all members.

Each month, we'll bring club news, event recaps, car tips, member spotlights, and a bit of automotive fun.

Remember, this is your newsletter - the more you share, the better it gets. Until next month, keep your engines running, your tires rolling, and your spirits high.

TIP OF THE MONTH

iPhone photography

Shoot low, zoom smooth — your car deserves the spotlight

Next time you're snapping your ride, try this: instead of standing too close, step back a bit and use **2x zoom** on your iPhone. It flattens the image slightly and gives your car a cleaner, more natural shape - no weird wide-angle warping or "giant hood" effect.

Keep the contrast calm: shoot during golden hour (right after sunrise or before sunset) for softer shadows and a warm glow that makes your paint pop without filters.

Pro move: lock focus (tap and hold), then slide your finger a little to adjust exposure. You'll keep the highlights under control - perfect for shiny chrome or bright paint jobs.

Bonus tip: crouch low for that heroic angle... but remember, the pavement is less forgiving than your camera roll.

MOD CORNER

It's been a busy month for our very own Soph down at Miss Automotive!

Ben has recently purchased this little gem of a car and has wasted no time in starting his first mods! Things we love to see right?

with a front splitter, rear diffuser and some wing mirror replacements , this little beauty is looking ready to race!
